Subject: Surplus Copy Machines

Background: The City purchased (10) copy machines for various locations in municipal buildings in 2013. The equipment is utilized by staff every day to assist in providing City services. Over time, the equipment comes to the end of its useful life or it is not economical to pay for repair. New copy machines have been purchased and will be delivered soon.

Budget Discussion: Funds are budgeted in the amount of \$ from the General Fund. Ongoing costs are estimated to be \$ annually. Previous years' funding was \$

Public/Board/Staff Input: With the failure and frequent service of several copy machines that were purchased in 2013, City staff worked diligently to find a way to replace the copiers over the past few months. With the construction at City Hall about to start, storage space will be difficult to find. Sumner One has agreed to pick up and dispose of the old copy machines when the new machines are delivered at no additional charge. Exhibit A lists the current location, tag number, and model of each machine to be disposed of.
