**RE:** RV/TRAILER PARKING RESTRICTIONS ORDINANCE

At the City Council Study Session on November 14, 2016, I presented information regarding the implementation of an ordinance restricting the parking of recreational vehicles (RVs) and trailers on city streets. The ordinance proposed establishes a prohibition of parking RVs, trailers, and commercial vehicles on any street within the city with the exception of RVs and trailers attached to vehicles for the purpose of loading/unloading material for no more than seventy-two consecutive hours within any thirty day period.

The proposed ordinance also refines the definition of "commercial vehicle" and will prohibit vehicles "*displaying signage or commercial advertisements*" from habitual or long-term parking on city streets. The proposed ordinance allows temporary parking of listed vehicles on city streets for the purpose of making deliveries, pickup, or other provision of services so long as the vehicles are not left continuously parked between the hours of 11:00 p.m. and 6:00 a.m. The intent of this proposed ordinance is to allow *temporary* parking of service vehicles (plumbers, food delivery, lawn services, electricians, etc.) on city streets. There is no prohibition for parking these types of vehicles on private property in this proposed ordinance.

This ordinance will be placed on the regular agenda for the November 28, 2016 City Council Meeting. If passed by the City Council, the ordinance would take effect after sixty days. A copy of the proposed ordinance is attached. Please advise if you need additional information.
