Subject: Water and Sewer Rate Changes

Background: Each year, the budget team and Director of Public Works take the opportunity to discuss past and current performance, revenues, and expenditures for the Combined Waterworks and Sewerage System Fund (CWSS). Items that are taken into consideration to calculate the cost to provide water and sewer services are water usage, personnel, supplies, services, payments for debt, and capital needs. The City produces water from their wells, and Kansas City Water handles the sewer treatment.

Budget Discussion: N/A

Public/Board/Staff Input: After analysis of the needs of the CWSS fund, the budget team is recommending a change in the water usage fee of \$0.51 per month (per 1,000 gallons) from \$5.36 to \$5.87. The budget team is also recommending a change to the water service charge of \$0.97 per month from \$10.25 to \$11.22. Staff received notification from KC Water that the charges for sewer treatment would increase effective May 1, 2026 by 6%. To keep revenues and expenditures in-line for the fund, staff is recommending a corresponding increase to the monthly usage fee of 6%. This would result in a change in the per 1,000-gallon fee of \$.79 per 1,000 of usage to \$13.93 per 1,000 gallons (increases are in-line with changes from KC Water). For customers with average usage of 5,000 gallons of water and 4,000 gallons of sewage, the monthly payment would increase \$7.02 from \$107.79 per month to \$114.81.
