

**RESOLUTION NO. R-16-60**

**A RESOLUTION AUTHORIZING ACCEPTANCE OF A PROPOSAL FROM DICK SMITH FORD, RAYTOWN, MISSOURI, FOR THE PURCHASE OF ONE (1) 2017 FORD POLICE INTERCEPTOR 4X4 UTILITY VEHICLE IN THE TOTAL PURCHASE AMOUNT OF \$26,914.00.**

**WHEREAS**, the Mid America Council of Public Procurement (MACPP), has published notification of an award of a "Metropolitan Joint Vehicle Bid" to Dick Smith Ford, Raytown, Missouri, for purchasing police vehicles. It is recommended the City accept the contract price and purchase one (1) 2017 Ford Police Interceptor 4X4 Utility vehicle from Dick Smith Ford, Raytown, Missouri.

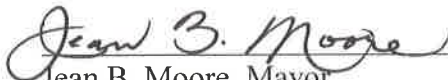

**NOW THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF GLADSTONE, MISSOURI AS FOLLOWS:**

**THAT**, the City Manager of the City of Gladstone, Missouri, be and is hereby authorized to accept the proposal through the MACPP "Metropolitan Joint Vehicle Bid" from Dick Smith Ford, Raytown, Missouri for the purchase amount of \$26,914.00.

1 – 2017 Ford Police Interceptor 4X4 Utility Vehicle – TOTAL COST: \$26,914.00

**FURTHER**, funds for such purpose are authorized from the FY 2016 General Fund.

**INTRODUCED, READ, PASSED, AND ADOPTED BY THE COUNCIL OF THE CITY OF GLADSTONE, MISSOURI THIS 26<sup>th</sup> DAY OF SEPTEMBER 2016.**

  
Jean B. Moore, Mayor

**Date:** September 19, 2016

**Re:** POLICE VEHICLE PURCHASES

Three new police vehicles were authorized for purchase in the 2017 Budget; \$33,000.00 is budgeted in the General Fund and \$66,000.00 in the Public Safety Sales Tax (PSST) Fund. Sergeant Bill Brier researched the competitive bids for police vehicles through the Mid America Council of Public Procurement (MACPP) and determined bids for Dodge Charger police vehicles were awarded to Landmark Dodge, Chrysler, Jeep (1900 S. Noland Road, Independence, Missouri) and bids for Ford Police Interceptor Utility vehicles were awarded to Dick Smith Ford (9505 E. 350 Highway, Raytown, Missouri).

MACPP utilizes a competitive bid procedure that ensures the best prices for procuring equipment and vehicles, including police vehicles. The City of Independence managed the bid process for 2015-2016 model year police vehicles. Sergeant Brier contacted Larry Wilson, Fleet Manager at Landmark Dodge, Chrysler, Jeep and obtained a quote for two Dodge Charger police vehicles (attached). He contacted Greg Lofton, Fleet Manager at Dick Smith Ford and obtained a quote for one Ford Police Interceptor Utility vehicle (attached). Both Landmark Dodge, Chrysler, Jeep and Dick Smith Ford are honoring the 2016 model year pricing on the 2017 models available for purchase.

We discovered that Dodge now offers an option that includes a computer monitor built-in to the dashboard. This offers much more room inside the passenger compartment of the vehicle and would be significantly safer in the event of a traffic accident as the computer itself would be mounted in the trunk. One of the Dodge Chargers will be purchased with this option to test the functionality of this option and may be included on future police vehicle purchases.

Two resolutions authorizing the purchase of two (2) Dodge Charger police cruisers from Landmark Dodge, Chrysler, Jeep and one (1) Ford Police Interceptor utility vehicle from Dick Smith Ford will be placed on the City Council Meeting Agenda for Monday, September 26, 2016. Once the vehicles are delivered, installation of the consoles, police radios, computers, radar units, and application of the police decals/markings will be arranged. Please advise if you have any questions.

**Police Field Services  
Division**

# Memo

**To:** Director Michael J. Hasty  
**From:** Major Robert M. Baer  
**Date:** 09/09/16  
**Re:** Vehicle Purchase

---

Sir,

After researching the purchase of three (3) new law enforcement fleet vehicles, which include two (2) 2017 Dodge Chargers and One (1) 2017 Ford Explorer, I recommend we purchase the vehicles from Landmark Dodge and Dick Smith Ford. Both dealers have submitted bids that are below the purchasing contracts of both the Missouri Highway Patrol and the Mid America Council Public Procurement (MACPP) processes.

The City of Gladstone Purchasing Policy states in section IV, E that the process of obtaining competitive bids may be waived when it is advantageous to procure items through contractual agreements conducted by other entities. I have determined the Missouri Highway Patrol and the Mid America Council of Public Procurement programs are recognized competitive bidding processes that comply with this waiver.

**The pricing for the 2017 Dodge All-Wheel Drive, V8 Chargers with integrated 12.1 computer screens are as follows:**

Missouri State Highway Patrol Bid - \$26,234.50

MACPP Bid- \$26,400.00

Landmark Dodge Bid - \$26,134.50 (\$24,634.50 without the 12.5 integrated computer screen)

**The pricing for the 2017 Ford V6 Four-Wheel Drive Explorers are as follows:**

Missouri State Highway Patrol - \$27,517.00

MACPP Bid - \$26,914.00

Dick Smith Ford Bid - \$26,914.00

Please find the attached memo from Sgt. Bill Brier as well as the bids submitted by Landmark Dodge and Dick Smith Ford. Also, I have attached the Missouri Highway Patrol and MACPP program bids.

Please note that if we were to replace a staff or detective vehicle instead of a patrol vehicle, we could delete the integrated screen and deduct \$1,500 from the price of one of the Dodge Chargers.

Respectfully,

A handwritten signature in black ink, appearing to read "R. M. Baer", with a long horizontal flourish extending to the right.

Major Robert M. Baer

## 2016 Dodge Charger Upgrade: 12-Inch Computer Screens

Hands on with the new 2016 Dodge Charger Pursuit car: why the police car has a huge screen

by Patrick Rall

The new UConnect 12.1 infotainment system that is one of the largest I have ever seen, outside of those high end luxury cars which come with an iPad or a similar tablet mounted in the dash. Shortly after posting pictures of the huge police infotainment system online, I saw people complaining about how it isn't necessary for police officers to have cutting edge technology, but this new system isn't about tech; it is about making a car that is safer for the men and women who keep our streets safe.

© 2015 Patrick Rall  
for allpar.com

Detroit Police Chief James Craig talked about the dangers to officers that many of us don't ever consider. Each year, more police officers are killed in car accidents in their cruiser than by violent attackers. While we hear about cops being killed in the line of duty, we don't hear about the greater numbers of cops killed as a result of unintentional crashes.

Repairs

To show how much the current laptop system interferes with the interior space and safety of a police car, Dodge had a 2014 Dodge Charger Pursuit from the Detroit police force on hand to compare against their 2016 Charger Pursuit with the new in-dash system. Simply looking into the cabin of the two cars makes clear the advantages of the new system, which takes out the entire intrusive laptop/screen assembly. The entire area between the two front seats is opened up; and the center console is thinner, allowing both officers more leg space.

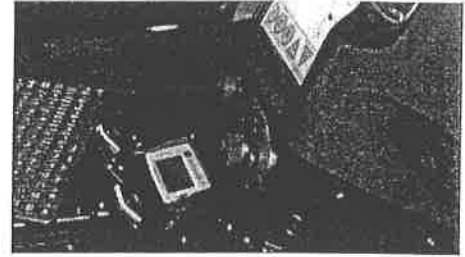

When sitting in the 2016 Charger Pursuit with UConnect 12.1, there are virtually no obstructions around your knees, and the area between the seats is wide open. When sitting in the 2014 Charger with the normal police computer setup, I had to turn towards my right when seated in the passenger's seat to avoid having my knee pressed against the large console, and even then, I had the laptop sticking out in front of me – although still very hard to use since it is facing the driver.

With this new in-dash police system, every aspect of the police car is in one touch screen and steering wheel mounted buttons. The driver can easily access all of the functional controls of the police car, from the lights to the siren to the computer, as well as the radio and the climate

control. The screens can be customized to some measure, and even has a front-facing camera to record incidents.

For those officers who don't care for the touchscreen, there is also a component keyboard that snaps neatly into the slim center console, but almost every major function of police duty can be operated from the screen in the dash. Also, since the screen is mounted in the dash, it is equally accessible to both officers seated up front.

With this technology, officers are safer and more comfortable, without losing any of the features that they get from the cluttered interior layout that is standard in pretty much every police car in America. The new police UConnect 12.1 system makes it easier and safer for cops to do their jobs, and that makes the world a safer place for everyone.

*Ray noted that there was no microphone in the photos. That's because the forward facing camera, which is wired in, was not ready yet, so they used an aftermarket mirror. Now forward-facing cameras/radar systems are ready and the demonstration car will get its microphone (inside the rearview mirror) back, according to a Dodge spokesman.*

#### The facts

In September 2015, Dodge launched an upgraded 2016 Charger Pursuit car, using a class-leading 12.1-inch screen (1024x768) integrated in the center panel (not available in civilian cars). It connects to a trunk-mounted laptop via Ethernet, and has a keyboard and trackpad between the seats. The display was tested to work with officers wearing gloves, and conditions from -40°C to 85°C (-40°F to 185°F).

The screen can be split to show the normal 8.4-inch UConnect interface (640 x 480) in addition to the police display, and the redundant physical controls are still there, along with a fourth auxiliary button managed through the Vehicle Systems Interference Module (VSIM). Dodge provides power, ground, and fusing for a variety of lighting, siren, computer/modem, or camera systems.

# DICK SMITH FORD

MACPP 2016 Model Year Bid #251-14-7C

Item #35 Ford Police Interceptor Utility 4x4

Quote for City of Gladstone per Sgt. Bill Brier

**Note: these will be 2017 models at 2016 pricing & include back-up camera screen in center stack. If preferred, screen can be ordered in rear-view mirror.**
