Subject: Missouri Department of Transportation (MODOT) Cost Share Application, Vivion Road Trail – N. Mulberry to N. Oak Trafficway

Background: The Vivion Road Trail has been a regional goal for several years and the last remaining unfunded segment is located between N. Mulberry Avenue and N. Oak Trafficway. This segment of trail is also expected to be one of the most expensive to construct with an estimated project cost of \$5.8 million.

Gladstone and Kansas City have been working to identify funding sources for the proposed project. To date, the Cities have secured approximately \$1.6 million in Federal Transportation Alternatives Funds. KCMO also recently submitted an application seeking an additional \$3 million for the project through the newly-created Federal Carbon Reduction Program. The projects selected for this funding have not yet been announced.

MODOT staff has recommended that the Cities submit a project application seeking MODOT Cost Share funds since the project is located entirely within State/Federal right-of-way. The purpose of the MODOT Cost Share Program is to build partnerships with local entities to pool efforts and resources to deliver State transportation projects.

Budget Discussion: \$10,000.00 in budgeted in the TST Fund.

Public/Board/Staff Input: Staff recommends that the City submit a MODOT Cost Share application seeking funding for the Vivion Road Trail. McClure Engineering is assisting with preparation of the application. The application deadline is July 21, 2023.

Provide Original Contracts, Leases, Agreements, etc. to: City Clerk and Vendor.
