Subject: A Resolution authorizing the City Manager to enter into an agreement with American Response Vehicles for the purchase of a 2026 Chevrolet G4500 Ambulance chassis and to remount our current patient care module/body onto the new chassis. The purchase and installation of a Stryker Powerload Cot System is also included in the project.

Background: Typically, the chassis is the part of the ambulance that wears over time and contributes to the majority of maintenance expenses. The current configuration of our ambulances allows the patient care module/body to be removed from the chassis and remounted onto a new chassis at a far reduced expense over full ambulance replacement. This remount process includes upgrades to the patient compartment area as well, including replacement of the flooring and cabinets. Utilizing a three-bid vendor request and the Kansas City Regional Purchasing Cooperative Agreement, it has been determined that American Response Vehicles is the best-suited vendor and provides the most value and cost-effective option for the City.

Budget Discussion: Funds are budgeted in the amount of \$ 179,450.59 from the General Fund. Ongoing costs are estimated to be \$ 0 annually. Previous years' funding was N/A.

Public/Board/Staff Input: Staff recommends approval of the proposed Resolution.

Provide Original Contracts, Leases, Agreements, etc. to: City Clerk and Vendor.
